

OH MY GOD

Cydne these mockups are AWESOME!

I loooooove Mockup A so let's go with that one:

- First of all, the logo, navi bar, and all the cool shapes look so good.
- I like the color palette a lot.
- Maybe think about having an "explore" part at the bottom of the home page, with buttons that link to "Career", "YSL", and "Early Life"?
- For the mobile version I love what you did for the first part "YVES SAINT LAURENT", the overlapping shape and everything.
- Same for the mobile adding the explore section would be great :)
